EXPANSION OF THE RADIO MONITORING STATION  
LANDINGS NEAR GRAND ISLAND, NEBR.

---

MAY 10 (calendar day, MAY 18), 1934.—Ordered to be printed

---

Mr. THOMPSON, from the Committee on Interstate Commerce,  
submitted the following

R E P O R T

[To accompany H.R. 9394]

The Committee on Interstate Commerce, to whom was referred the bill (H.R. 9394) to authorize the Federal Radio Commission to purchase and enclose additional land at the radio station near Grand Island, Nebr., having considered the same, report the same without amendments and recommend that the bill do pass.

This monitoring station is already in operation and is used to measure the frequencies of stations not only in this country but all over the world. It is highly desirable that it be enlarged and improved by the addition of this land. The Radio Commission has had the bill referred to it and also recommends its passage.
